

MEMORANDUM

DATE: February 26, 2026
TO: Melissa Palmer, Public Health Director
FROM: Lynne Valentine, Nursing Services Manager
RE: FY26 Revision of Nursing Services Fee Schedule

PURPOSE

This memorandum is to request the approval of the proposed revision of the Mohave County Department of Public Health fee schedule for Nursing Services.

DISCUSSION and ANALYSIS

The fee schedule for the Mohave County Department of Public Health-Nursing Services Division was last revised in 2023. The Nursing Services fee schedule is for services available through our Family Planning/Reproductive Health Programs, Tuberculosis (TB) Program, and Adult Immunization Program. The Family Planning/Reproductive Health programs are 100% grant funded programs, the TB Program is partially grant funded and General Fund supported, and the Adult Immunization Program is supported by a combination of the General Fund and patients' health insurance claim reimbursements.

Fee increases included on the proposed fee schedule are due to higher operating costs, as well as increases in the cost of vaccines, medications and materials. Conversely, any proposed reduced fees are due to lower vaccine, medication, or material costs associated with the service.

Please also note our Family Planning/Reproductive Health clinics are available for uninsured, underinsured, and low-income individuals and services are offered on a sliding fee scale based on the patient's household income; a majority of our patients pay little to nothing out of pocket.

REQUEST

Approve setting a public hearing for April 20, 2026, to consider the revised Mohave County Department of Public Health-Nursing Services Division fee schedule and approve the proposed fee schedule effective May 1, 2026.
