Latest 7-Day Precipitation Forecast

Key Points

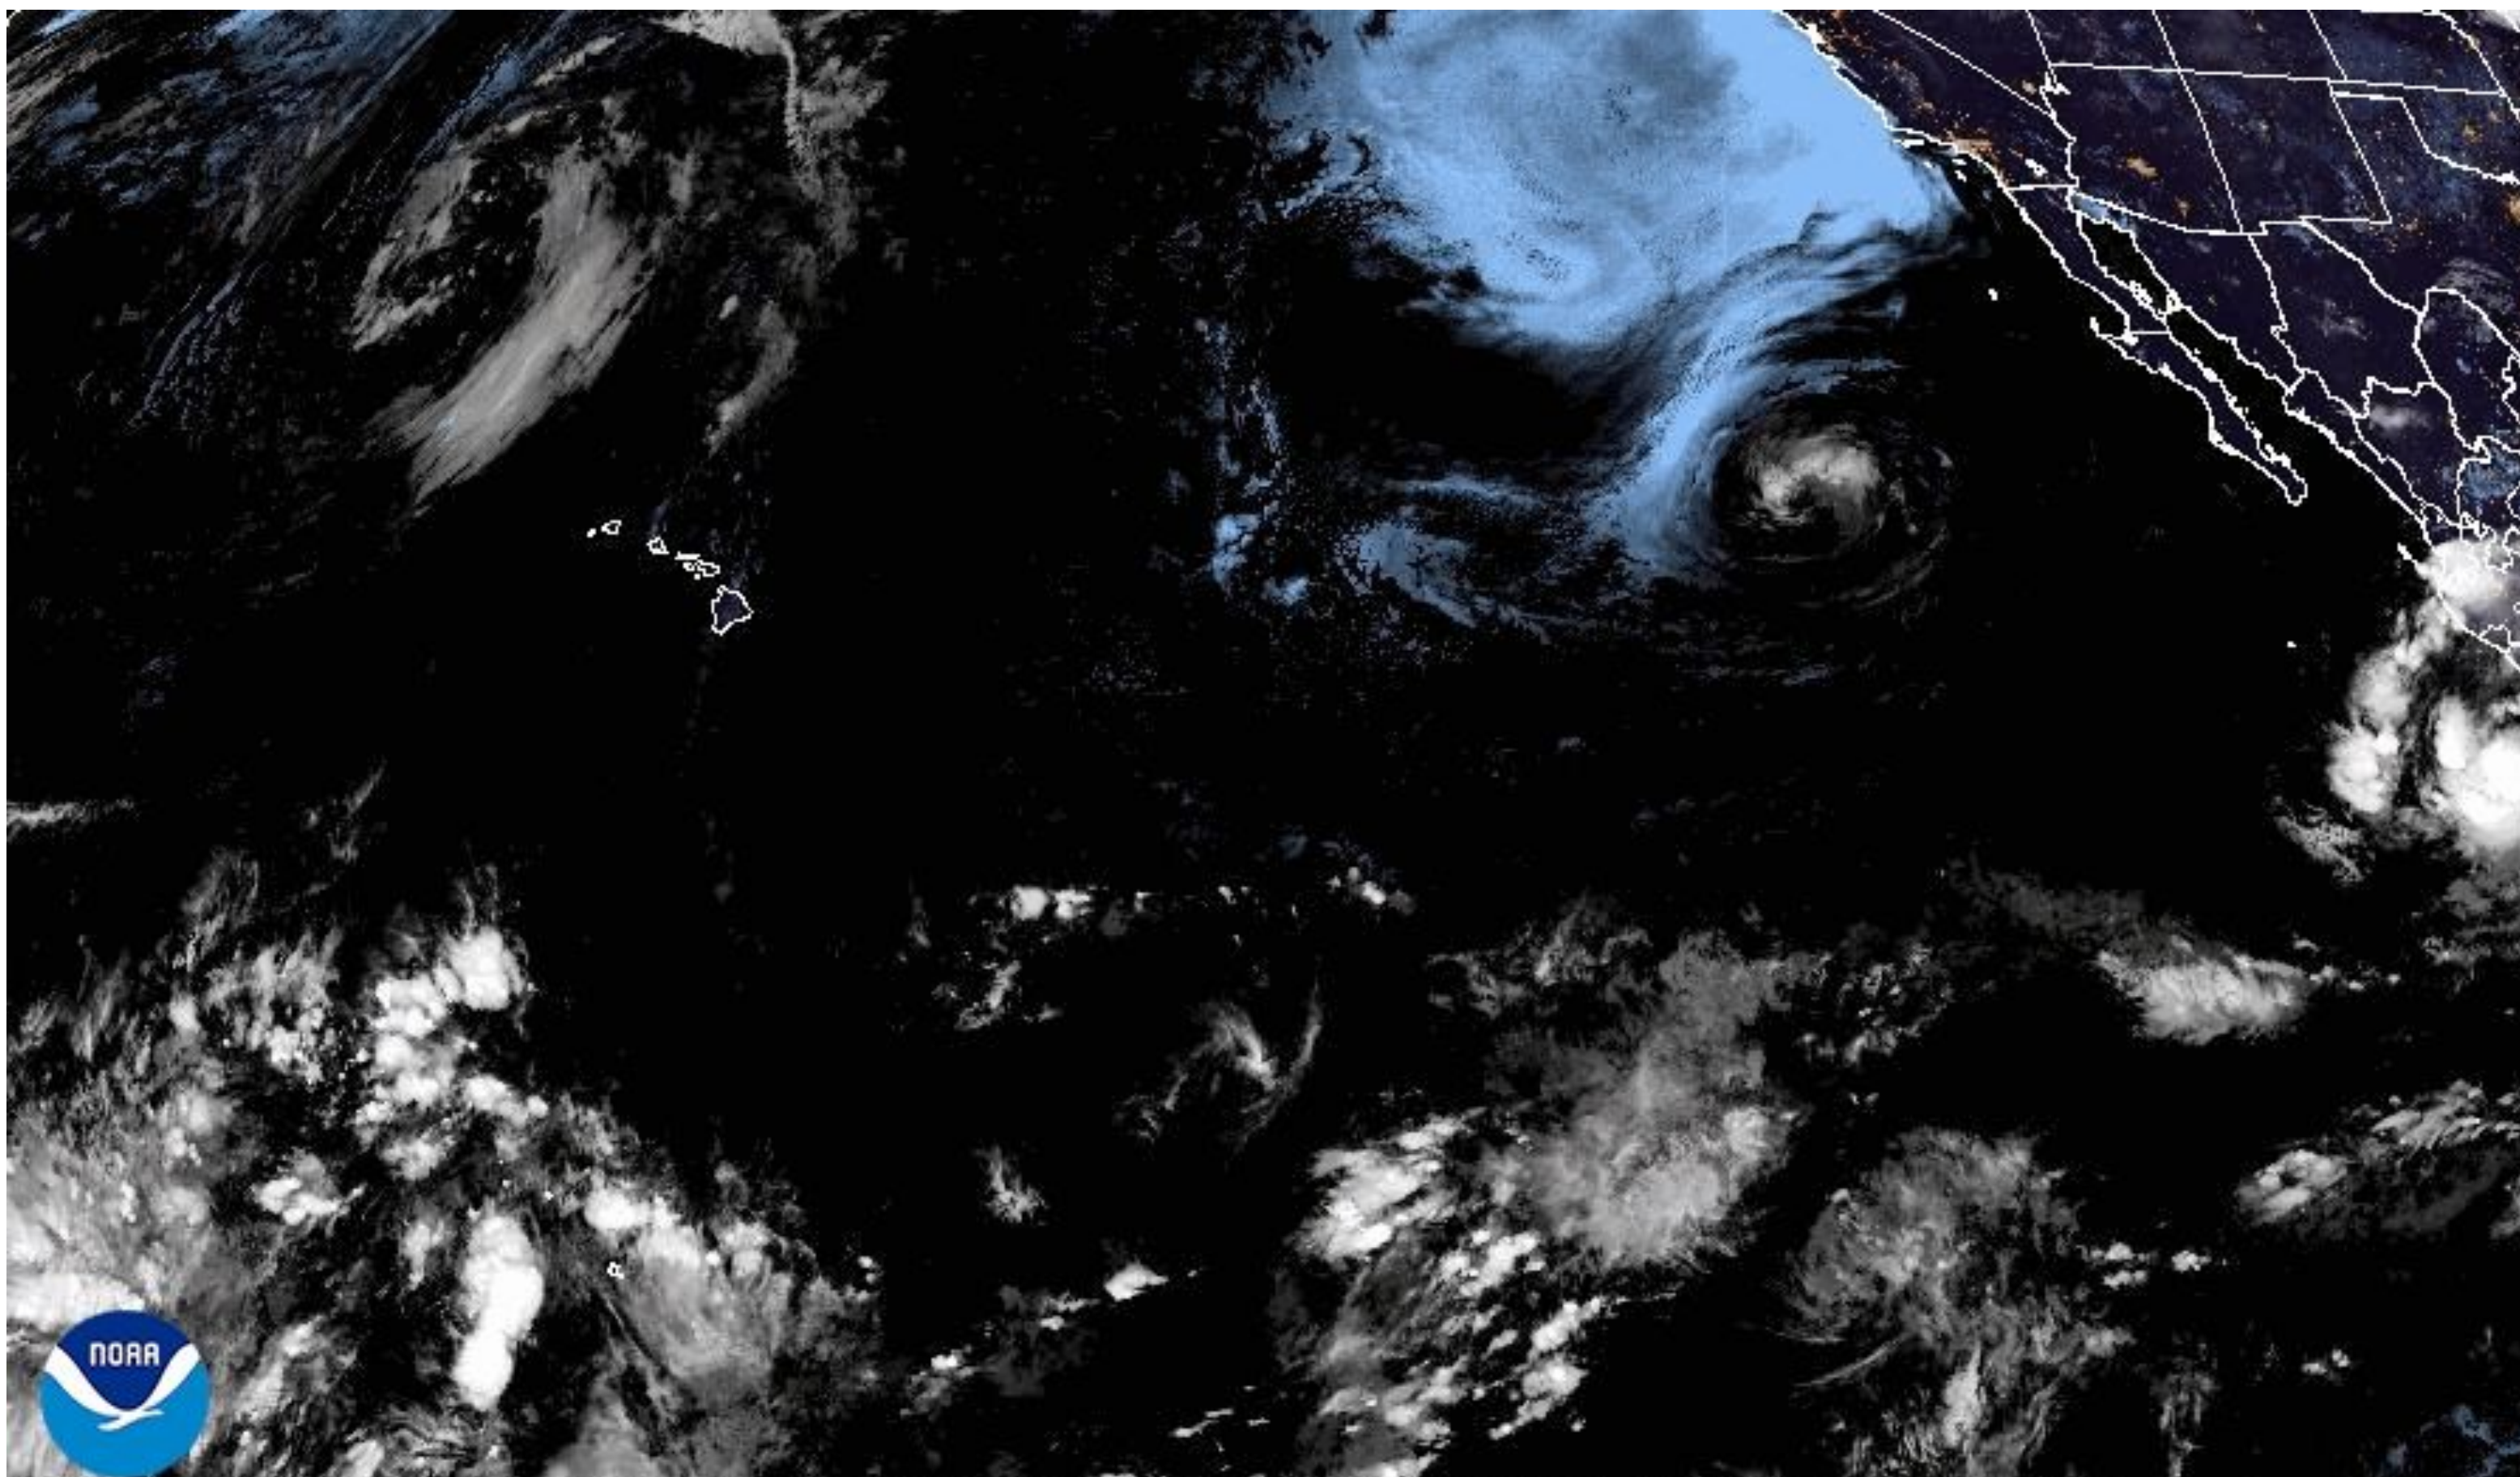

Weather Forecast Office
Las Vegas, NV
Friday, October 9

- **Confidence is increasing that widespread moderate to heavy rainfall and gusty winds will move into the region this weekend.**
- **Deteriorating weather conditions are expected from late Saturday afternoon into early Sunday morning.**
- **Instances of flash flooding will be possible where the heaviest rainfall occurs.**
- **Thunderstorms with locally damaging winds will be possible Saturday evening into Sunday.**
- **Gusty south-southwest winds expected Saturday through Monday.**

Satellite - Tropical Pacific

Weather Forecast Office
Las Vegas, NV
Friday, October 9

09 Oct 2026 07:20Z - NOAA/NESDIS/STAR - GOES-West - GEOCOLOR Composite

What We Know:

- Widespread rainfall, scattered thunderstorms, and gusty winds will move into the region Saturday afternoon into early Sunday morning.
- Strong winds will develop Saturday across the Southern Great Basin, and early Sunday morning across the Mojave Desert as the remnants of Rachel move in.

What We Don't Know:

- Exact precipitation amounts and locations of heaviest rainfall.
- Exact timing of peak rainfall rates.
- Coverage and intensity of thunderstorm activity.
